

To the staff of BACAS,

I am extremely grateful for the care you have given to me concerning my back. When I first came to see Dr. Bond I was hurting so bad I was actually crawling every stem I took me just want to cry. After the first week of pain management procedure I felt like a new woman.

I know I have some more healing to do. Also thanks to Tasha. I am from a town call Starkville, Mississippi. How did I hear about Dr. Bond, my daughter Shon Witherspoon live here in Pearland and one of her co-workers recommend me to go see him.

Forever grateful,

Partriciann Trainer

Appreciation and Love to all who took part of my recovery.

P.S. Thanks Almighty God for great hands and mind.

Place and good health to each of you. "Thanks a million"
