

Nelson Bond MD  
Interventional Pain Management/Anesthesia

## **New Prescription Policy Effective 11/01/10**

In order to better monitor your medications, we will no longer fill any prescription without a follow up office visit within the last month. Please make sure to schedule your follow up before your prescription is due to be filled so you do not run out. For all refill requests, please contact your pharmacy 24 to 48 hours in advance due to our 24 hour turnaround time. All triplicate prescriptions will be given at the time of your appointment **ONLY**. Please also keep in mind if you call in a refill request on any Friday, you may not receive your medication until the following Monday.

Thank you in advance for your cooperation,  
BACAS Staff
